

Year 1 Curriculum Enrichment

Academic Year 2024-2025

Education must develop every child's personality, talents and abilities to the full. It must encourage the child's respect for human rights, as well as respect for their parents, their own and other cultures, and the environment (UNCRC Article 29)

At Coppice Primary School we are always looking for ways to expand and enrich the learning experiences we are able to offer our pupils. Whilst our staff are endlessly creative and work hard to keep the school day as varied and engaging as possible there are often some experiences and activities that we simply cannot provide in school, or that despite their value fall outside of what the school can budget for. Because of these we ask parents to make a contribution towards the cost of activities such as trips, workshops and other activities.

Below is a list of activities we would like to provide in your child's year group this year, along with the level of voluntary contribution per pupil.

- No individual student will be excluded from an activity because parents are unwilling or unable to contribute
- The school will only be able to run those activities where the cost is covered by contributions. Where we do not receive sufficient contributions to cover all the activities listed staff will prioritise and run those they feel are most important for pupils.
- Contributions are made towards the total cost of all activities, not individual ones.
- Pupils who qualify for Pupil Premium Funding are eligible for a discount
